Other student systems which are NOT homogenized by the Tech Department:

ProgressBook Gradebook access: Students and parents make their own username and password the first time they register with a Registration Code from the Tech Department. The easiest way is to email the request to Mark or Eric, the Tech Department will respond with directions and the appropriate unique student or parent code.

Existing Users: There is a "Forgot your username or password?" link where students and parents can reset their own password, or be reminded of their username. Both of these resets require a valid email address, a school address for students or a parent's email for a parent account. (If set up correctly.)
